MTD Sales Performance & GP Tracker Dashboard

Excel • Power Query • Power Pivot • DAX

5	11	7	13
Regions	Categories	Data Sources	DAX Measures

An end-to-end Excel dashboard that lets management track daily **Month-to-Date sales, gross profit, target achievement and stock position** across **UAE, KSA, Kuwait, Oman and Qatar**, by store and by merchandise category.

THE CHALLENGE

Daily performance data was scattered across separate Excel files (sales, targets, last month, last year, stock ageing), so reporting meant manual consolidation and delays.

THE SOLUTION

A refreshable Excel model that brings every source together, calculates all KPIs with DAX, and shows results through a dashboard and MTD summary reports, updated in one click.

How It Works

1 Source Files
Sales, Target, Last Month, Last Year and Ageing Excel files

2 Power Query
Cleaned data, fixed types, removed columns and merged files

3 Power Pivot
Data model linking all tables to Store, Category and Calendar

4 DAX KPIs
MTD Sales, Target Ach%, GP, GP%, M-o-M, NOB, Avg Ticket Size

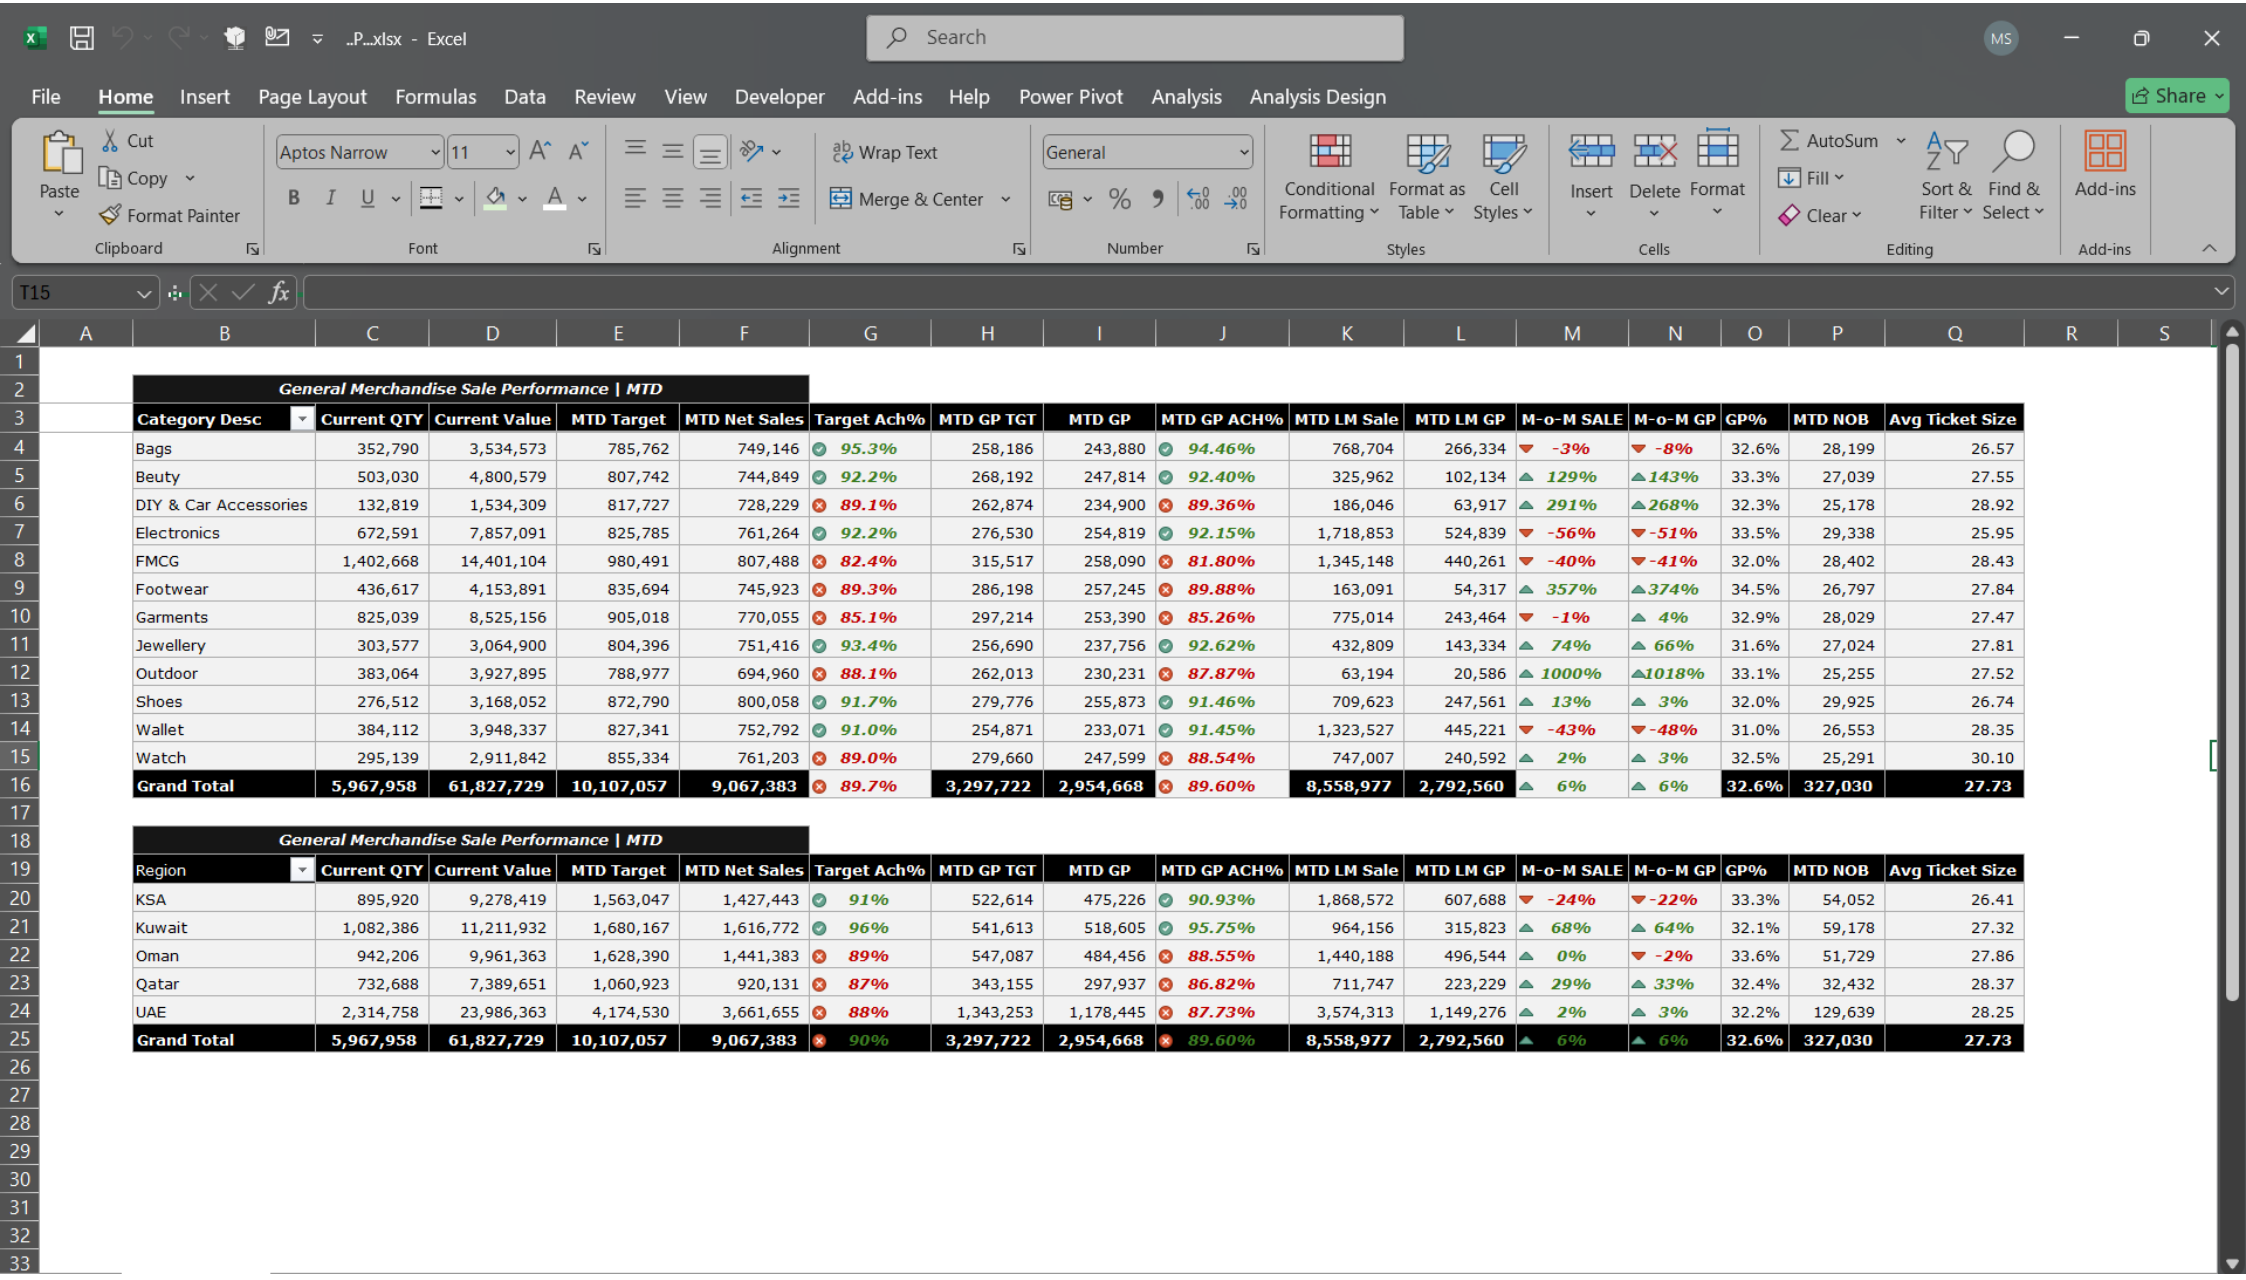

5 Dashboard
KPI cards, slicers, region and store charts, MTD summaries

Business Impact

- Refreshable, one-click daily reporting replaces manual consolidation
- Sales linked with stock value to support replenishment decisions
- Quick view of regions, stores and categories behind target or below last month
- Faster, more consistent and reliable management reporting

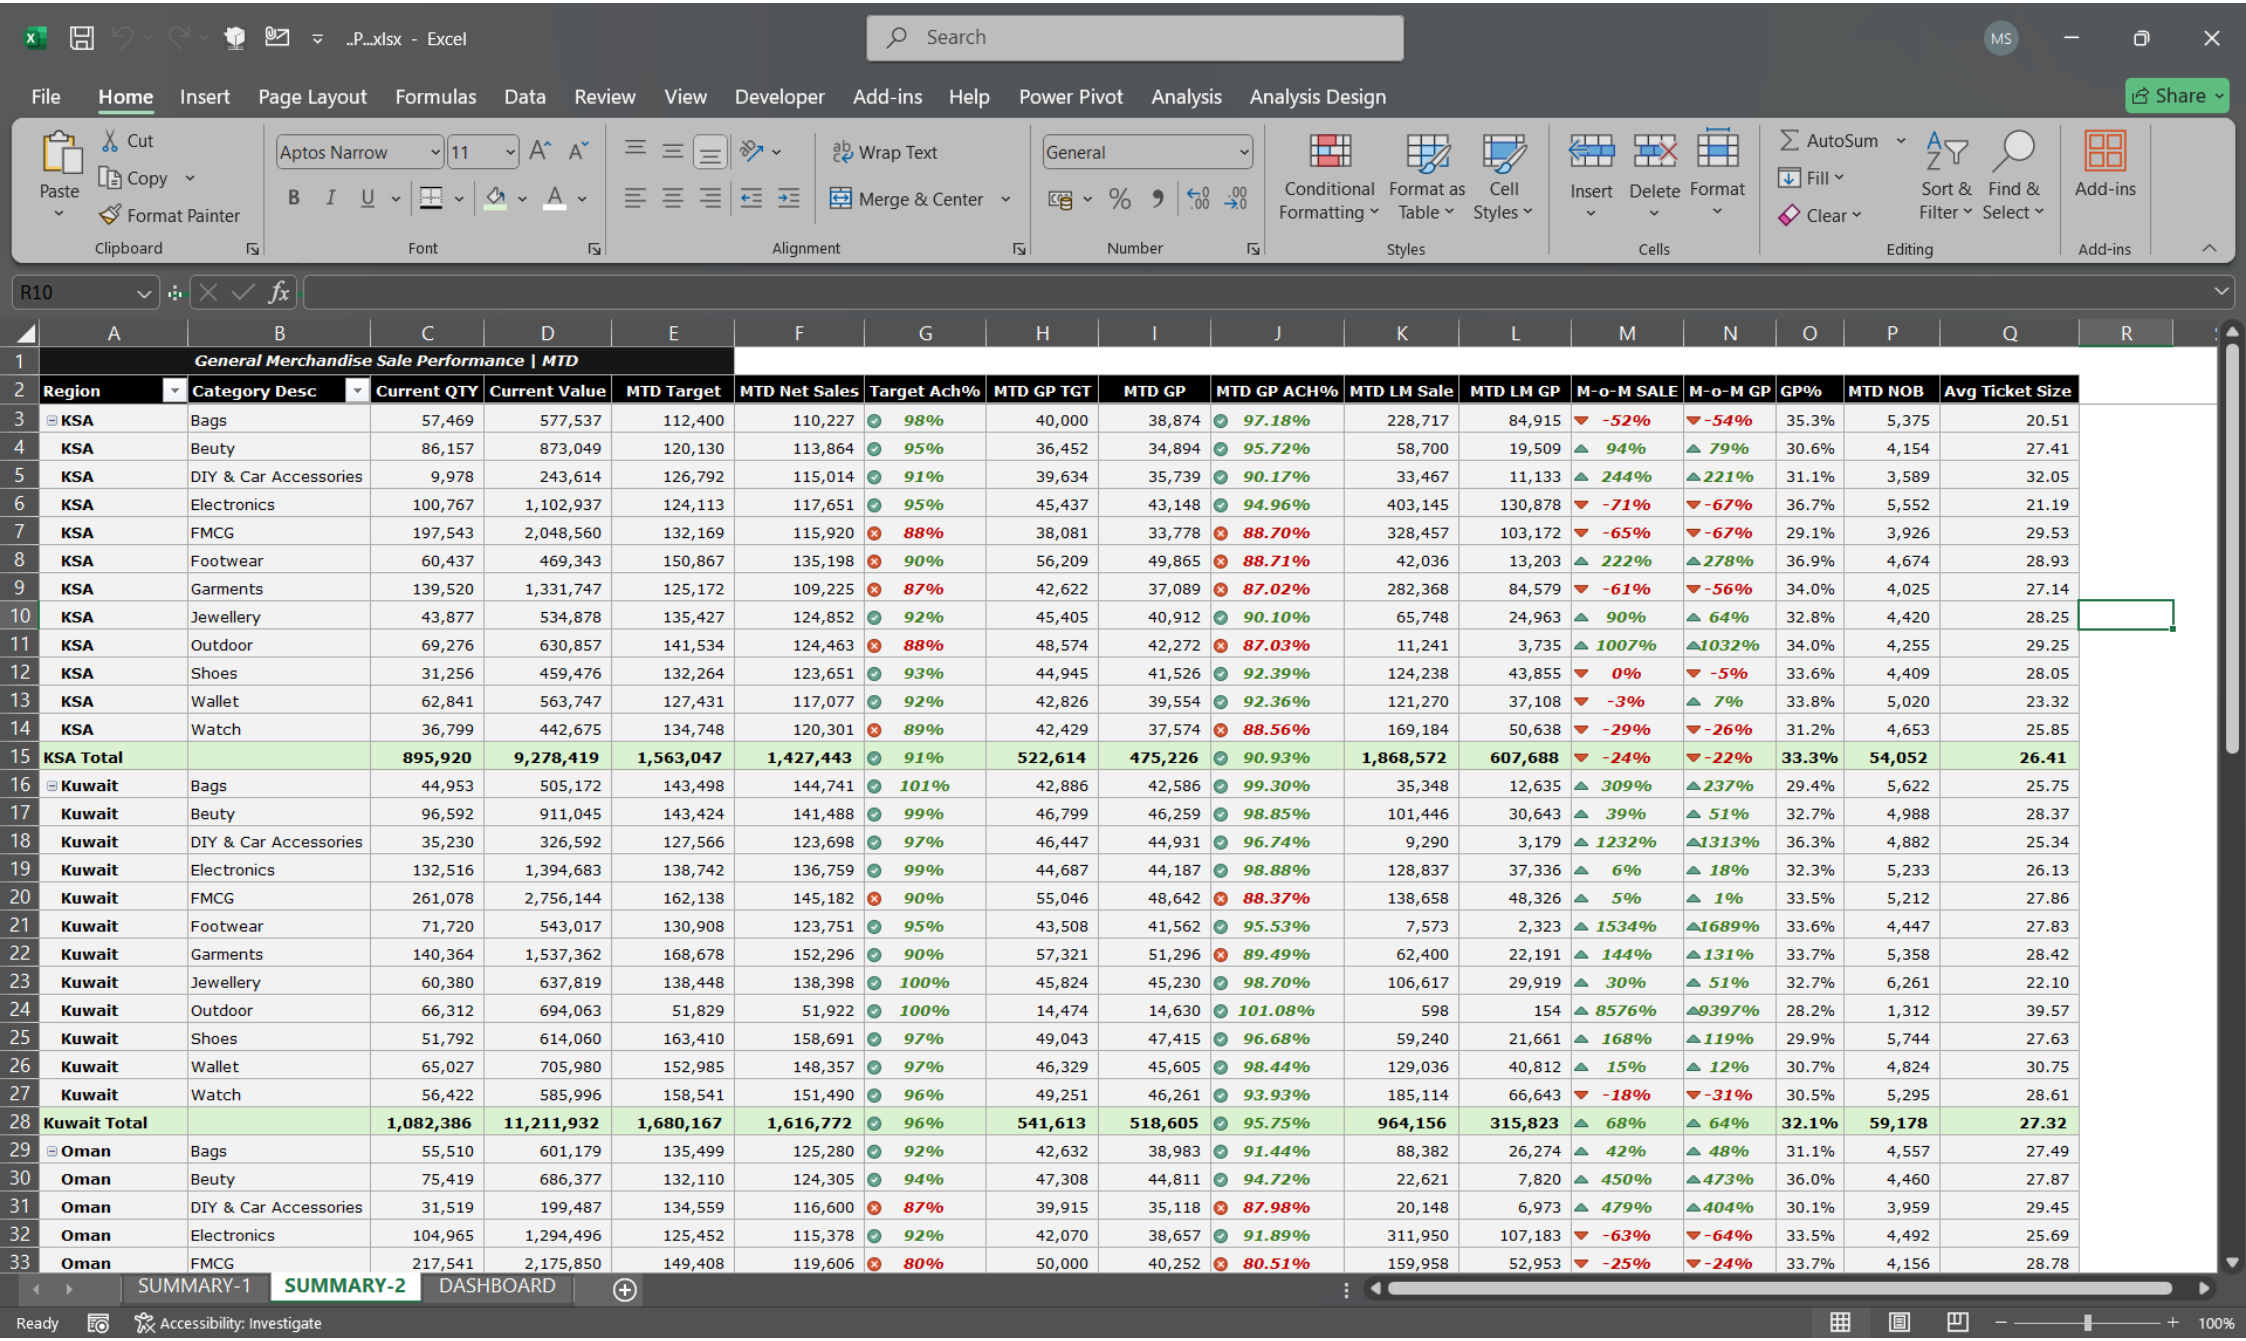

Tools & Skills

Advanced Excel | Power Query | Power Pivot | DAX | Data Modelling | KPI Design | Dashboard Design | Retail Analytics | MIS Reporting
